

废电池放入专门回收箱，
以免污染环境

The illustration shows a large, upright rectangular bin with a rounded top, resembling a recycling container. On the front of the bin, the Chinese characters '电池' (Battery) and '回收' (Recycling) are written vertically. To the right of the bin is a small, anthropomorphic battery character with a smiling face, arms, and legs. The battery character has a positive sign on its chest and is holding a small, discarded battery in its right hand.
